Soapbox

Senator Hoegh: People have been asking how to get funding. I wrote up a short document that you can put in your mini-minutes. Also we need to update the website.

DOC Brooks: Elaine has something similar. I agree with putting it on the website.

Senator Baker: Keep putting out the mini-minutes.

Senator Strain: Recycling in the grille?

Concerts: Please take the Concerts survey – you get entered to win Chuong gift cards!

Prez Awe: Congrats to the new Execs – Dan Davis, Dixon Romeo, Emma Lange! Thanks to the people who are here just to watch.

PO: Minutes – are okay. Intersectiona Feminist Alliance budget from Services. Cab reports. Questions for Espigares?

Prez: Do you guys take attendance at concerts?

PO: Nicole Sexton from DSA is here for a short presentation.

Nicole Sexton: I'm new here. I'm here in a student assistance role. I'm a non-confidential resource. I work with people who need check-ups and follow-ups or for short term trauma. Acute and long-term help. Here to communicating resources and being available. The paper I handed out talks about my mission. Anyone can contact me to chat with me. Students can also refer other students to me – this can remain anonymous. I would love to meet with more people on campus – currently have already met with 25 people. I'm a mom of two, I'm very high energy but also a great listener. I'm here to help students. Any Questions?

Prez: How closely do you work with RLCs?

Nicole: I work with everyone from SHACS to Academic advising to chaplains, I can pass information from students to confidential resources. Privacy is a big concern for some students since I am non-confidential. If there is a threat to you, then I am required to report, but I am as transparent about that as possible.

ACE G: Can a student seek you out first, or do people usually direct others to you.

Nicole: Typically others will reach out to me, especially since I am a new resource on campus. Here it's mainly parents and staff and faculty that are reaching out to me.

PO: Lets go to the Intersectional feminist alliance. Is there anyone here to talk about it?

Ben Mothershed: I will be representing IFA.

Services Fang: Its actually for 888 and not 850

Ben: Currently there is no SANE nurse at GRMC (someone who collects forensic evidence linked to sexual assaults. It would be great if SGA could fund this because this would be a huge benefit to the community and to students here. The money would train a nurse to be SANE certified. I'm not a member of Dissenting Voices but was shocked to learn that we didn't have this resources.

Prez: GRMC is unwilling to pay for the SANE training?

Ben: The people from dissenting voices have been. Someone has to go at very specific times of the day to get the proper treatment such as a rape kit.

Prez-Elect: College paid for last 2 SANE nurses to be trained.

Senator White: How long do training credentials last?

Ben: I don't know. It's 40 hours of training.

ACE H: Why is the hospital not funding this?

Ben: Don't have the money and don't see the need. Some people in the community might not know what a SANE nurse is

ACE G: Do we know if SGA paid for it last time or someone else in the college

Services Fang: We have not funded this in the past by my knowledge.

VPASA: If we offer this money to them, is there a way to ensure that the college will benefit from it directly.

Ben: We will identify nurses who are on-call. Nurses who receive the training could come in when needed.

ACE G: Will there be some sort of contract to know how long they'll be here? I don't want them to get training and then see them leave.

Ben: We can't enforce anything upon them.

VPASA: DO the students that are working on this have someone from the school working with GRMC so that we can somehow enforce this?

Ben: We're going to work with SHACS. We could get one nurse trained at SHACS and one on-call at the hospital.

Christian Noyce: Considering that these nurses will be on call, will there be a procedure in place to know that someone is SANE trained.

Ben: Yes. It depends who takes the victim/survivor to the hospital.

PO: We can postpone this budget, given the number of questions regarding this budget.

Senator Davis: We have a method of contact.

Prez: We should put in place measures to ensure that people feel safe. I think that we need to have some kind of assurances in place.

Move to close debate – second

PO: No Old Business – New Business! A resolution regarding student expectations in sustainable practices. Resolution will be read and Christian Noyce '15, its sponsor, will speak to it.

Motion to Approve +Senator

Christian Noyce: I am co-chair of the student environmental committee. This is not sponsored by them – it is independent. College has not yet taken these actions. Your approval of this resolution would be great.

VPAA: The 11 minimum goals – do you have them somewhere?

Christian: Yes I can get them to you.

Senator Strain: Can you outline them?

Christian: Platinum certification, Grey water systems, renewable energy sources, etc.

PO: Further Debate?

Senator Strain: If we pass this, is it binding?

Christian: No, it expresses support.

PO: Clarifying – the administration will abide by the plan. Will require VPAA to draft a resolution to the committee.

DOC: Why is there no FM representative right now?

VPAA: Rick Whitney – VP of FM is on the committee.

PO: Further debate?

Senator Strain: Can we access these 11 points?

PO: Here are the 11 points.

VPAA: Do you think that these 11 goals align with disability + accessibility?

Christian: Yes

Eliana Schechter: What does sub-metered mean?

Christian: Individual meters for each building on campus so that we can track how much each building uses.

ACE H: Will this substantially increase the price of the renovation?

Christian: I don't know.

VPAA: You want a permanent member from your committee on the building committee?

Christian: Yes

Senator White: Edible plant provision?

Christian: Native landscapes or edible landscapes have been talked about. Strawberries are an example.

VPAA: What happens if I propose the resolution but the committee denies me?

Christian: That can happen but that would be noncompliance with Kington

VOTE: Passage: 12-0-3

PO: Other Resolution. Resolution condemning Yik Yak. I will read it now.

AC: Explains resolution.

Senator Hoegh: Can we send this to S&B?

AC: Yes

Prez: We could also send an all-campus e-mail.

Senator O: Can you elaborate more on the resolution. What would happen next?

PO: If passed, the Student Government would make a statement.

VOTE: Unanimous Passage: 13-0-1
